DIRECTORS REPORT
FOR THE YEAR ENDED 30 JUNE 2022

The Directors of Master Grocers Australia Limited present their report to the members on the results of the Company for the financial year ended 30 June 2022 and on the state of affairs of the Company as at that date.

The following Directors of Master Grocers Australia Limited held office during the financial year and, unless noted, until the date of this report:

Name	Position	Period Held
ANILE, Ross	Director	1 July 2021 to 30 June 2022
DOS SANTOS, Christopher	Director	1 July 2021 to 30 June 2022
GOUGH, Graeme	Director	1 July 2021 to 30 June 2022
GOLDSMITH, Carmel	Director	1 July 2021 to 25 November 2021
HARPER, Jeff	Director	1 July 2021 to 30 June 2022
HINCHCLIFFE, Grant	Vice President	1 July 2021 to 30 June 2022
PAREKH Ripple	Director	1 July 2021 to 30 June 2022
SLAUGHTER, Terry	Director	25 November 2021 to 30 June 2022
SMITH, Deborah	President	1 July 2021 to 30 June 2022
WYMER, Lincoln	Director	1 July 2021 to 30 June 2022

PRINCIPAL ACTIVITIES

Trading as MGA Independent Retailers and Timber Merchants Australia, the Company is a national Industry Employer Association providing independent retail food, liquor, timber and hardware stores with services and support within 5 key functional areas of Legal and HR, Training and Compliance, Industry Representation, Industry Community and to protect the status and best interests of its members.

The Company provides regular e-alerts to notify and advise its members of emerging issues and publishes a fortnightly E Checkout bulletin, a monthly webinar on employment law matters and 8 editions of its Independent Retailer magazine each year. In addition, MGA provides a suite of face to face training and online compliance training.

The Company represents members' views - fighting for member sustainability and prosperity at federal, state and local levels, as evidenced by our work on industrial relations reform: casuals, part time flexibility, annual wage reviews, competition law reform, least cost routing, trading hours, packaged liquor, illicit tobacco waste management and energy costs.

MGA is dedicated to the business well being of its members. This is achieved through the committed and dedicated MGA Staff who deliver MGA's key functions professionally and consistently day in and day out, face to face, on line and via the telephone.

The Company's key objectives for the financial year are summarised as follows:

- ensure ongoing financial sustainability
- focus on engagement with members and corporate partners and environmental sustainability
- launch our new brand
- deliver excellent Legal/IR/HR and membership support and services
- introduce our new CEO to key stakeholders and provide a thorough induction
- build/strengthen relations with the new federal government

In order to meet these objectives, the Company has implemented the following strategies:

- develop and periodically review an operating budget that delivers all desired membership objectives
- encourage opportunities for engagement to grow independent food, liquor, timber and hardware retailer and corporate memberships
- comprehensive induction plan for the new CEO
- continue to develop the Company's team skills and capability
- brand rejuvenation and roll-out
- website revitalisation
- implementation of a new CRM

Performance in achieving the Company's objectives is measured in a number of different ways including quantity of contacts, quality of advice (time), number of seminars attended, E Alerts sent, magazines distributed, training courses provided (face to face and online) and number of representations.

OPERATING RESULTS

The Company reported a loss from ordinary activities amounting to \$88,893 (2021 surplus: \$757,932) for the year ended 30 June 2022.

DIVIDENDS

The Directors do not recommend the payment of any dividend. No dividends have been paid or provided for since the end of the previous financial year.

DIRECTORS REPORT
FOR THE YEAR ENDED 30 JUNE 2022

YEAR IN REVIEW

"Making Life Easier" for Members

The Company's Board of Directors wishes to state that It has again been a privilege to lead a committed team of professionals at MGATMA. The Company remains completely dedicated to the welfare and prosperity of family enterprises and privately-owned businesses in the supermarket, liquor and timber and hardware sectors. We do not represent "Big Business".

During the year the Company's membership increased slightly to 2,664 and remains steady.

We thank outgoing Director Carmel Goldsmith who was a driving force for family and privately owned business members. Carmel stood down from the board in November 2021. Carmel's enthusiasm and deep retail insights will be missed.

We welcome incoming Director Terry Slaughter whose family owns community grocery and supermarket businesses in Queensland. Terry brings several skills and capabilities to the Board , based on his knowledge acquired through many years in the food and grocery sector at a corporate level and also in his own business.

For the Company and all members around Australia, FY2022 has been one of the most challenging years ever experienced. Our members are to be congratulated for the manner in which they took on the challenges presented by the continuing impact of Covid across Australia and also the impact of flooding in many parts of the country.

During the year, the Company was heavily involved in many state and federal forums to support the safe opening of various economies around Australia. At the same time, the Company also addressed many other matters, including industrial relations and employment law matters, food supply and food security, unfair competition matters, Least Cost Routing, Illicit Tobacco, liquor matters, state trading hours, unfair planning and zoning, tobacco regulations and sustainability – waste and energy.

The Company was involved in many discussions with the Federal Government in regard to various business support measures including the Cash Flow Boost grant, Job Keeper, Job Seeker, Job Maker and Job Saver programmes - all of which have been effective in keeping businesses afloat and employees attached to their employers when locked down.

Our team has done a great job in keeping the best interests of our member and industry stakeholder community in the forefront of all our activities during the FY2022 year. Despite having to cope with their own personal Covid – 19 restrictions by working from home and then a staggered approach to returning to work, our team is to be congratulated for their flexibility, agility and hard work in dealing with all day to day matters with which our members required support.

A highlight in the 2021 calendar year was the Company's involvement with Federal Attorney General Christian Porter's IR Reform Working Groups. The Attorney General and the Federal Government recognised the Company as an organisation with a high profile and deep credibility and integrity, in the family and private business sector.

In early 2021, the Company and the ACTU jointly applied to the FWC to insert a schedule in the GRA to enable part-time employees to work additional hours at ordinary rates of pay. This has now become available to members for implementation into their businesses

Many other matters have been addressed in the various States and Territories as can be seen further on in this report. We are privileged as an organisation to be invited to meetings and forums, representing our members, for consultation on a breadth of issues and matters.

The Board, together with staff, have committed to focussing on the next urgent issue facing our members - reducing members' carbon footprint. Introducing the principle of a Circular Economy to members around Australia is a key focus for our team, behind industrial relations.

Significant savings can be derived by reducing, or eradicating, crippling waste management costs and avoiding landfill by implementing a range of sustainable solutions in members' businesses. The aim is for members to earn carbon credits and actually make money from their waste.

The future is exceptionally bright for the Company, with exciting plans afoot to refresh and reposition the MGA TMA branding and to further lift the organisation into an aspirational association that family and private business owners are proud to be a member of.

FY2023 is the year of Member engagement which will drive the maintaining, retaining and growing of membership in the Company.

The Board has worked very hard this year to better understand the needs of members and has pledged to continue to deliver value for money to members. Membership fees are very reasonable for the support and services provided to members. The Board resolved to increase membership fees by 3.5% for Financial Year 2023, in line with the increasing costs of doing business.

MGA's Heads of departments and staff have worked very hard this last financial year assisting and supporting its grocery, liquor or timber and hardware members. Their passion and commitment to support members is demonstrable. I sincerely thank MGA management and staff for their commitment to "making life easier" for members.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
DIRECTORS REPORT
FOR THE YEAR ENDED 30 JUNE 2022

SIGNIFICANT CHANGES

There are no significant changes other than those described in the Review of Operations.

EVENTS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

There has not been any matter or circumstance occurring subsequent to the end of the financial year that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations, or the state of affairs of the company in future financial years.

LIKELY DEVELOPMENTS

Investment of MGA funds and resources will continue to be allocated to the development of support services for members.

Levels of investment and the resulting impact on the Profit and Loss will be closely monitored throughout the year.

Modest increases in membership and revenue is forecasted however remuneration and operational costs will need to be monitored.

DETAILS OF CURRENT DIRECTORS

		Date Appointed	Experience and Special Responsibilities
Deborah Smith Masters of Business Administration		7th June 2006	<p>Debbie became a Director of Master Grocers Association of Victoria Limited in 2005 and was instrumental in establishing the MGA as a national organisation for the Independent Supermarket Industry. Debbie has held the position of President since 2019. Debbie has 26 years' experience in Independent Supermarkets, owning a number of stores in and around Toowoomba in Queensland. A passionate advocate for small business, Debbie has also served as a Director of Australian United Retailers (2003-2015), and as an Advisor to the Queensland Small Business Advisory Committee (2016-2021).</p> <p>Director - A & D Holdings (QLD) Pty Ltd Director - DAALT Pty Ltd Director - MiPlanet Australia Pty Ltd</p>
Jeff Harper		7th February 2019	<p>Jeff has been employed in his family-owned supermarket business in Victoria for 18 years. In addition to growing his business, Jeff is the current Chairperson of the Victorian IGA State Board and of the IGA Express. Jeff is passionate about helping others and striving to build a stronger independent supermarket network.</p> <p>Director - Bayview Pty Ltd Director - Cooperative Supermarkets of Australia Ltd</p>
Lincoln Wymor Diploma Retail Management		22nd November 2018	<p>Lincoln has worked as the Chief Operating Officer of a multi store ownership group, operating independent licensed supermarkets in Victoria and New South Wales since 2006. The group currently comprises: nine (9) FoodWorks supermarkets, ten (10) GO Grocers, two (2) IGA supermarkets and one (1) Cellarbrations.</p> <p>Lincoln has been working full time in the supermarket industry since 1992, having worked for a 10-year period with Woolworths/Safeway, and proudly working in the independent supermarket sector for over 20 years. Lincoln has been a Director of Master Grocers Australia since 2018 and on the Victorian State Advisory Committee for Australian United Retailers (AUR/FoodWorks) since 2011.</p>
Ross Anile		11th February 2019	<p>Ross has been self-employed in the retail food industry since 1984. He has been a member of the Foodland retail advisory committee for 15 years, a Metcash State Board member for 10 years and a Metcash National Board member for 4 years. Ross has held a position on the MGA National Industry Group Board for 4 years. Ross's contribution extends as a Rotarian for 9 years, including holding President and District Governors Representative positions, as well as a volunteer bushfire member for Roleystone for 9 years.</p> <p>Director - Gratin Pty Ltd</p>
Terry Slaughter of the Peace	Justice	25th November 2021	<p>For over ten years Terry has been the owner and operator of IGA Springfield Lakes, having over 30 years experience in retail. Terry is passionate about championing independent and family-owned businesses, and 'community centric' through the work undertaken as part of the IGA brand. Terry believes in strong political and government relationships and continues to advocate for fairer 'independent retailing' conditions to ensure MGA members across the network remain relevant into the future.</p> <p>Director - Slaughter Enterprises Pty Ltd</p>

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

NOTE 1 Summary of significant accounting policies

1.1 Basis of preparation of the financial statements

The financial statements are general purpose financial statements and have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that apply for the reporting period and the *Fair Work (Registered Organisation) Act 2009*. For the purpose of preparing the general purpose financial statements, Master Grocers Australia Limited is a not-for-profit entity.

The financial statements have been prepared on an accrual basis and in accordance with the historical cost, except for certain assets and liabilities measured at fair value, as explained in the accounting policies below. Historical cost is generally based on fair values of the consideration given in exchange for assets. Except where stated, no allowance is made for the effect of changing prices on the results or the financial position. The financial statements are presented in Australian dollars.

1.2 Comparative amounts

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in the presentation for the current financial year.

1.3 Significant accounting judgements and estimates

The following accounting assumptions or estimates have been identified that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

Key Estimates

Impairment

Accounting standards require management to assess, at each reporting period, whether there are any indicators of impairment in relation to the carrying amount of its assets. Where an impairment indicator is identified, the recoverable amount of the asset must be determined and compared to the carrying amount.

Judgement is applied by management in assessing whether there are any impairment indicators and, where required, in determining the recoverable amount.

Provisions

A provision is recognised for items where the company has a present obligation arising from a past event. It is probable that an outflow of economic resources will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. The provision is measured as the best estimate of the expenditure required to settle the present obligation. Management applies judgement in assessing whether a particular item satisfies the above criteria and in determining the best estimate.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.4 New Australian Accounting Standards

Adoption of New Accounting Standard requirements

The accounting policies adopted are consistent with those of the previous financial year except for the following amendments to accounting standards and other changes in accounting policy, which have been adopted for the first time this financial year:

- *AASB 2021-3 Amendments to Australian Accounting Standards – Covid-19-Related Rent Concessions beyond 30 June 2021*

No accounting standard has been adopted earlier than the application date stated in the standard.

AASB 2021-3 Amendments to AASs – Covid-19-Related Rent Concessions beyond 30 June 2021

This amendment provides relief to lessees from applying AASB 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification. A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under AASB 16, if the change were not a lease modification.

The amendment was intended to apply until 30 June 2021, but as the impact of the Covid-19 pandemic is continuing, on 31 March 2021, the period of application of the practical expedient was extended to 30 June 2022. The amendment applies to annual reporting periods beginning on or after 1 April 2021.

The amendments had no impact on the financial statements of MGA.

Future Australian Accounting Standards Requirements

New standards, amendments to standards or interpretations that were issued prior to the sign-off date and are applicable to future reporting periods that are expected to have a future financial impact on the reporting unit include:

AASB 2020 -1 – Amendments to AASs – Classification of Liabilities as Current or Non-Current

This Standard amends AASB 101 Presentation of Financial Statements to clarify requirements for the presentation of liabilities in the Statement of Financial Position as current or non-current. For example, the amendments clarify that a liability is classified as non-current if an entity has the right at the end of the reporting period to defer settlement of the liability for at least 12 months after the reporting period. This Standard applies to annual reporting periods beginning on or after 1 January 2023. Earlier application is permitted.

The amendments are not expected to have any impact on the financial statements of MGA.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.5 Investment in associates and joint arrangements

An associate is an entity over which MGA has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

A joint operation is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the individual assets and obligations for the liabilities of the joint operation.

The results and assets and liabilities of associates and its joint ventures are incorporated in these financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with AASB 5 Non-current Asset Held for Sale and Discontinued Operations. Under the equity method, an investment in an associate or joint venture is initially recognised in the statement of financial position at cost and adjusted thereafter to recognise the share of the profit or loss and other comprehensive income of the associate. When the share of losses of an associate or joint venture exceeds the interest in that associate, MGA discontinues recognising its share of further losses. Additional losses are recognised only to the extent that it has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture

Any excess of the cost of acquisition over the share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

1.6 Acquisition of assets and or liabilities that do not constitute a business combination

MGA did not acquire an asset or liability due to an amalgamation under Part 2 of Chapter 3 of the RO Act, a restructure of the branches of the organisation, a determination or revocation by the General Manager of the Fair Work Commission under subsections 245(1) or 249(1) of the RO Act7.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.7 Revenue

MGA enters into various arrangements where it receives consideration from another party. These arrangements include consideration in the form of membership subscriptions, corporate sponsorship, training and industrial relations services, commission and grants.

The timing of recognition of these amounts as either revenue or income depends on the rights and obligations in those arrangements.

Revenue from contracts with customers

Where MGA has a contract with a customer, MGA recognises revenue when or as it transfers control of goods or services to the customer. MGA accounts for an arrangement as a contract with a customer if the following criteria are met:

- the arrangement is enforceable; and
- the arrangement contains promises (that are also known as performance obligations) to transfer goods or services to the customer (or to other parties on behalf of the customer) that are sufficiently specific so that it can be determined when the performance obligation has been satisfied.

Membership subscriptions

For membership subscription arrangements that meet the criteria to be contracts with customers, revenue is recognised when the promised goods or services transfer to the customer as a member of MGA.

If there is only one distinct membership service promised in the arrangement, MGA recognises revenue as the membership service is provided, which is typically based on the passage of time over the subscription period to reflect MGA's promise to stand ready to provide assistance and support to the member as required.

For member subscriptions paid annually in advance, MGA has elected to apply the practical expedient to not adjust the transaction price for the effects of a significant financing component because the period from when the customer pays and the good or services will transfer to the customer will be one year or less.

When a member subsequently purchases additional goods or services from MGA at their standalone selling price, MGA accounts for those sales as a separate contract with a customer.

Corporate sponsorships

Sponsorship revenue is recognised based on passage of time over the sponsorship period in accordance with the terms and conditions of the sponsorship contracts.

Chargeable services and training income

Chargeable services and training income is brought to account when the service is provided.

Grants and donations

The timing of grant recognition will depend on whether there is any performance obligations or other liability. Government grants are not recognised until there is reasonable assurance that MGA will comply with the conditions attaching to them and that the grant will be received.

Government grants received by MGA to enable it to further its objectives are recognised as income when the consideration is received or eligibility requirements are met and MGA has the right to receive it.

Gains from sale of assets

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the statement of comprehensive income when the asset is derecognised.

Interest income

Interest revenue is recognised on an accrual basis using the effective interest method.

Rental income

Leases in which MGA as a lessor, does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the relevant lease term. Contingent rents are recognised as revenue in the period in which they are earned.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.8 Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave and termination benefits when it is probable that settlement will be required and they are capable of being measured reliably.

Liabilities for short-term employee benefits (as defined in AASB 119 *Employee Benefits*) and termination benefits which are expected to be settled within twelve months of the end of reporting period are measured at their nominal amounts. The nominal amount is calculated with regard to the rates expected to be paid on settlement of the liability.

Other long-term employee benefits which are expected to be settled beyond twelve months are measured as the present value of the estimated future cash outflows to be made by the reporting unit in respect of services provided by employees up to reporting date.

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

Provision is made for separation and redundancy benefit payments. The company recognises a provision for termination as part of a broader restructuring when it has developed a detailed formal plan for the terminations and has informed those employees affected that it will carry out the terminations. A provision for voluntary termination is recognised when the employee has accepted the offer of termination.

1.9 Leases

MGA assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Leases as a lessee

MGA applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The reporting unit recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

MGA recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to MGA at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment.

Lease liabilities

At the commencement date of the lease, MGA recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the reporting unit and payments of penalties for terminating the lease, if the lease term reflects the reporting unit exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, MGA uses the implicit interest rate or incremental borrowing rate if the implicit lease rate is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term or a change in the lease payments.

Short-term leases and leases of low-value assets

MGA's short-term leases are those that have a lease term of 12 months or less from the commencement. It also applies the lease of low-value assets recognition exemption to leases of reporting unit that are below \$10,000. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.10 Borrowing costs

All borrowing costs are recognised in profit and loss in the period in which they are incurred.

1.11 Cash

Cash is recognised at its nominal amount. Cash and cash equivalents include cash on hand, deposits held at call with bank, other short-term highly liquid investments with original maturity of 3 months or less that are readily convertible to known amounts of cash and subject to insignificant risk of changes in value and bank overdrafts. Bank overdrafts, if any, are shown within short-term borrowings in current liabilities on the statement of financial position.

1.12 Financial instruments

Financial assets and financial liabilities are recognised when MGA becomes a party to the contractual provisions of the instrument.

1.13 Financial assets

Contract assets and receivables

A contract asset is recognised when the right to consideration in exchange of goods or services that has transferred to the customer when that right is conditioned on future performance or some other condition.

A receivable is recognised if an amount of consideration that is unconditional is due from the customer (i.e. only the passage of time is required before payment of the consideration is due).

Contract assets and receivables are subject to impairment assessment. Refer to accounting policies on impairment of financial assets below.

Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortised cost, fair value through other comprehensive income (**OCI**), or fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and MGA's business model for managing them. With the exception of trade receivables that do not contain a significant financing component, MGA initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest' (**SPPI**) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

MGA's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.13 Financial assets (cont'd)

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e. the date that MGA commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in five categories:

- (Other) financial assets at amortised cost
- (Other) financial assets at fair value through other comprehensive income
- Investments in equity instruments designated at fair value through other comprehensive income
- (Other) financial assets at fair value through profit or loss
- (Other) financial assets designated at fair value through profit or loss

Financial assets at fair value through profit or loss (including designated)

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the Statement of Financial Position at fair value with net changes in fair value recognised in profit or loss.

Derecognition

A financial asset is derecognised when:

- The rights to receive cash flows from the asset have expired or
- MGA has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:
 - a) MGA has transferred substantially all the risks and rewards of the asset, or
 - b) MGA has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When MGA has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, MGA continues to recognise the transferred asset to the extent of its continuing involvement together with associated liability.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.13 Financial assets (cont'd)

Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

Impairment

Expected credit losses

Receivables for goods and services, which have 30-day terms, are recognised at the nominal amounts due less any loss allowance due to expected credit losses at each reporting date. A provision matrix that is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment has been established.

(i) Trade receivables

For trade receivables that do not have a significant financing component, MGA applies a simplified approach in calculating expected credit losses (ECLs) which requires lifetime expected credit losses to be recognised from initial recognition of the receivables.

Therefore, MGA does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. MGA has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

(ii) Debt instruments other than trade receivables

For all debt instruments other than trade receivables and debt instruments not held at fair value through profit or loss, MGA recognises an allowance for expected credit losses using the general approach. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that MGA expects to receive, discounted at an approximation of the original effective interest rate.

ECLs are recognised in two stages:

· Where there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses from possible default events within the next 12-months (a 12-month ECL).

· Where there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the debt, irrespective of the timing of the default (a lifetime ECL).

MGA considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, MGA may also consider a financial asset to be in default when internal or external information indicates that MGA is unlikely to receive the outstanding contractual amounts in full. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.14 Financial Liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, at amortised cost or at fair value through profit or loss.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

MGA's financial liabilities include trade and other payables.

Subsequent measurement

Financial liabilities at amortised cost

After initial recognition, trade payables and interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the profit or loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

1.15 Contingent Liabilities and Contingent Assets

Contingent liabilities and contingent assets are not recognised in the Statement of Financial Position but are reported in the relevant notes. They may arise from uncertainty as to the existence of a liability or asset or represent an existing liability or asset in respect of which the amount cannot be reliably measured. Contingent assets are disclosed when settlement is probable but not virtually certain, and contingent liabilities are disclosed when settlement is greater than remote.

1.16 Property, Plant and Equipment

Asset Recognition Threshold

Purchases of land, buildings, plant and equipment are recognised initially at cost in the Statement of Financial Position. The initial cost of an asset includes an estimate of the cost of dismantling and removing the item and restoring the site on which it is located.

Revaluations - Land and Buildings

Following initial recognition at cost, properties are carried at fair value less subsequent accumulated depreciation and accumulated impairment losses. Revaluations are performed with sufficient frequency such that the carrying amount of assets do not differ materially from those that would be determined using fair values as at the reporting date.

Revaluation adjustments are made on a class basis. Any revaluation increment is credited to equity under the heading of asset revaluation reserve except to the extent that it reversed a previous revaluation decrement of the same asset class that was previously recognised in the surplus/deficit. Revaluation decrements for a class of assets are recognised directly in the profit or loss except to the extent that they reverse a previous revaluation increment for that class. Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the asset is restated to the revalued amount.

Depreciation

Depreciable property, plant and equipment assets are written-off to their estimated residual values over their estimated useful life using either the diminishing value or straight line method of depreciation. Depreciation rates (useful lives), residual values and methods are reviewed at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

Depreciation rates applying to each class of depreciable asset are based on the following useful lives:

	2022	2021
Property and improvements	47 years	47 years
Plant and equipment	3 to 25 years	3 to 25 years

As no finite useful life for land can be determined, related carrying amounts are not depreciated.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.16 Property, Plant and Equipment (cont'd)

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the profit and loss.

1.17 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from changes in the fair value of investment properties are included in profit and loss in the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

1.18 Intangible assets

Intangible assets with finite lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful life. The estimated useful lives and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. The useful life of the intangible assets are:

	2022	2021
Intangible assets	5 years	5 years

No amortisation is provided for software assets under development until ready for use.

Derecognition

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit and loss when the asset is derecognised.

1.19 Impairment for non-financial assets

All assets are assessed for impairment at the end of each reporting period to the extent that there is an impairment trigger. Where indications of impairment exist, the asset's recoverable amount is estimated and an impairment adjustment made if the asset's recoverable amount is less than its carrying amount.

The recoverable amount of an asset is the higher of its fair value less costs of disposal and its value in use. Value in use is the present value of the future cash flows expected to be derived from the asset. Where the future economic benefit of an asset is not primarily dependent on the asset's ability to generate future cash flows, and the asset would be replaced if the company was deprived of the asset, its value in use is taken to be its depreciated replacement cost.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.20 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable, and the non-current asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs of disposal.

1.21 Current versus non-current classification

MGA presents assets and liabilities in the Statement of Financial Position based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

1.22 Taxation

MGA is exempt from income tax under section 50.1 of the Income Tax Assessment Act 1997 however still has obligation for Fringe Benefits Tax (FBT) and the Goods and Services Tax (GST).

Revenues, expenses and assets are recognised net of GST except:

- where the amount of GST incurred is not recoverable from the Australian Taxation Office; and
- for receivables and payables.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables.

Cash flows are included in the cash flow statement on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the Australian Taxation Office is classified within operating cash flows.

1.23 Fair value measurement

MGA measures financial instruments, such as financial assets at fair value through the profit and loss, and non-financial assets such as land and buildings and investment property, at fair value at each balance date. The fair value measurement of financial instruments are disclosed in Note 24.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2022

1.23 Fair value measurement (cont'd)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

MGA uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1—Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2—Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3—Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

External valuers are involved for valuation of significant assets, such as land and buildings and investment properties. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. For the purpose of fair value disclosures, MGA has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

1.24 Going concern

MGA is not reliant on the agreed financial support of another entity to continue on a going concern basis.

NOTE 2 Events after the reporting period

There were no events that occurred after 30 June 2022 and/or prior to the signing of the financial statements that would affect the ongoing structure and financial activities of the Company.

Portfolio management fee	16,326	19,174
Rental property costs	5,638	-
	<u>21,964</u>	<u>19,174</u>

NOTE 5 DIVIDENDS POLICY

No dividends were paid during the financial year or are proposed to be paid.

NOTE 6 INCOME TAX

The Company is income tax exempt effective from a Private Ruling dated 18th July 2003

NOTE 7 CASH & CASH EQUIVALENTS

Current

Cash at bank	1,012,705	1,120,831
Cash on hand	300	300
Other	-	-
	<u>1,013,005</u>	<u>1,121,131</u>

NOTE 8 TRADE AND OTHER RECEIVABLES

Current

Trade receivables	441,111	157,011
Less: allowance for expected credit loss	(7,343)	(27,751)
	<u>433,768</u>	<u>129,260</u>
Other receivables:		
Receivables from other reporting units	-	-
Loans to related entity	48,237	23,473
Others	28,077	4,137
	<u>76,314</u>	<u>27,610</u>
Less: allowance for expected credit loss	(48,237)	(23,473)
	<u>28,077</u>	<u>4,137</u>
	<u>461,845</u>	<u>133,397</u>

The exposure to credit risk and allowance for expected credit loss associated with the aging of receivables is disclosed in Note 23D.

No collateral is held over trade and other receivables.

The reporting unit has recognised the following assets and liabilities related to contracts with customers:

Contract receivables

Trade receivables - current	433,768	129,260
Trade receivables - non-current	-	-
	<u>433,768</u>	<u>129,260</u>

Contract liabilities

Deferred revenue - current	383,434	187,765
Deferred revenue - non-current	-	-
	<u>383,434</u>	<u>187,765</u>

Contract liabilities arise from contracts with customers and represent amounts paid (or due) by customers before receiving the services promised under the contract.

The significant change between the opening and closing balances of contract assets primarily relates to \$245,465 in annual membership fees which were billed in advance of the financial year ended 30 June 2023. This did not occur in the prior year.

The significant change between the opening and closing balances of contract liabilities also primarily relates to \$245,465 in annual membership fees which were billed in advance of the financial year ended 30 June 2023 and therefore recognised as deferred revenue. This did not occur in the prior year.

Revenue recognised in the year that was included in the contract liability balance at the beginning of the year was \$187,765. Contract liability is released to the statement of comprehensive income over time as the performance obligation is met.

Unsatisfied performance obligations

MGA expects that 100% of the transaction price allocated to remaining performance obligations is expected to be recognised as revenue within one year. These performance obligations primarily relate to member subscription contracts and corporate sponsorship.

	\$	\$
NOTE 11 INVESTMENT PROPERTY		
<i>Non current</i>		
As at 1st July	950,000	830,000
Additions	-	-
Net gain from fair value adjustment	-	120,000
As at 30 June	950,000	950,000

The valuation on Suite 9, 1 Milton Parade, Malvern 3144 was performed by Charter Keck Cramer Pty Ltd, an accredited independent valuer with a recognised and relevant professional qualification, on 25th May 2021.

The fair value of completed investment property has been determined on a market value basis in accordance with International Valuation Standards (IVS), as set out by the International Valuation Standards Council (IVSC). In arriving at their estimates of market values, the valuers have used their market knowledge and professional judgement and not only relied on historical transactional comparables.

The highest and best use of the investment property is not considered to be different from its current use.

Rental income earned and reimbursements received from the investment property during the year was \$51,139 (2021: \$50,260).

Direct expenses incurred in relation to the investment property that generated rental income during the year were \$5,638 (2021: \$nil). During the year and as at the year-end, no restrictions on the realisability of investment property or the remittance of income and proceeds of disposal were present. MGA does not have any contractual obligations to purchase, construct or develop the investment property or for repairs, maintenance or enhancements.

The fair value of investment property was determined by Charter Keck Cramer by using both the Direct Sales and the Income Capitalisation Methods.

Under the Income Capitalisation Method, a property's fair value is estimated based on the normalised net operating income generated by the property, which is divided by the capitalisation rate of 5.75%.

The fair value of the investment property is included within Level 2 of the fair value hierarchy as stated at Note 1.23 to the financial statements.

Trade payables and other payables	174,889	241,397
Carrying amount of financial liabilities	174,889	241,397

NOTE 23B Market risk analysis

MGA is exposed to market risk through its use of financial instruments and specifically to interest rate risk and equity price risks which result from both its operating and investing activities.

Interest rate sensitivity

Exposure to interest rate risk arises on interest-bearing financial assets and financial liabilities recognised at the end of the reporting period, whereby a future change in interest rates will affect either the future cash flows or the fair value of fixed rate financial instruments. The financial instruments that primarily expose MGA to interest rate risks are cash and cash equivalents.

The weighted average interest rates of interest-bearing financial assets are as follows:

	2022	2021	2022	2021
	\$	\$	%	%
Financial assets	80,400	116,262	3.90%	2.95%
Cash and cash equivalents	1,013,005	1,121,131	0.35%	0.12%

NOTE 23B Market risk analysis (Cont'd)

Other price risk sensitivity

MGA is exposed to changes in equity price movement in respect of its equity investments.

The following table illustrates the sensitivity of the profit and equity to a reasonably possible change in price movement of +/- 10% (2021: +/-10%). The calculations are based on financial instruments held at each reporting date that are sensitive to price movement.

	Profit for the year	
	+10%	-10%
30-Jun-22	212,801	(212,801)
30-Jun-21	234,137	(234,137)

	Equity	
	+10%	-10%
30-Jun-22	212,801	(212,801)
30-Jun-21	234,137	(234,137)

NOTE 23C Foreign Exchange risk analysis

MGA is only indirectly exposed to foreign exchange risk movement in respect of its investment in international equities through managed funds.

NOTE 23D Credit risk analysis

Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, and credit exposures to the sale of services to members and customers, including outstanding receivables and committed transactions.

MGA's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at the reporting date, as summarised below:

	2022	2021
Classes of financial assets		
<i>Carrying amounts:</i>		
Cash and cash equivalents	1,013,005	1,121,131
Trade and other receivables	461,845	133,397
Total	1,474,850	1,254,528

Credit risk is managed through maintaining procedures that ensure, to the extent possible, that customers and counterparties to transactions are of sound creditworthiness and their financial stability is monitored and assessed on a regular basis. Such monitoring is used in assessing receivables for impairment.

The allowance for expected credit loss associated with the aging of trade receivables is detailed below:

30-Jun-22	Trade receivables					Total
	Current	<30days	30-60 days	61-90days	>91 days	
Expected credit loss rate	0.0%	0.0%	0.0%	0.0%	40.1%	
Estimate total gross carrying amount at default	411,015	7,330	-	4,471	18,294	441,111
Expected credit loss	-	-	-	-	7,343	7,343
Trade receivable net of allowance	411,015	7,330	-	4,471	10,951	433,768

30-Jun-21	Trade receivables					Total
	Current	<30days	30-60 days	61-90days	>91 days	
Expected credit loss rate	0.9%	0.9%	0.0%	0.0%	62.4%	
Estimate total gross carrying amount at default	93,175	20,955	-	-	42,881	157,011
Expected credit loss	802	196	-	-	26,753	27,751
Trade receivable net of allowance	92,373	20,759	-	-	16,128	129,260

Loss rates are estimated in each age category and are based on the probability of a receivable progressing to write-off.

NOTE23E Liquidity risk analysis

Liquidity risk is a risk that the Company might be unable to meet its obligations. MGA's approach to managing liquidity risk is to ensure that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding as required and the ability to close-out market positions if necessary. The finance committee aims at maintaining flexibility in funding by keeping adequate liquidity available.

NOTE 24 FAIR VALUE MEASUREMENT

Financial assets and liabilities fair value hierarchy

Financial assets and financial liabilities measured at fair value in the Statement of Financial Position are grouped into three (3) levels of a fair value hierarchy. The three (3) levels are defined based on the observability of significant inputs to the measurement, as follows:

- a) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- b) Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability; either directly or indirectly
- c) Level 3: unobservable inputs for the asset or liability

The following table shows the levels within the hierarchy of financial assets and liabilities measured at fair value on a recurring basis at 30 June 2022 and 30 June 2021:

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
30-Jun-22				
Assets				
Fair value through profit or loss	2,128,012	-	-	2,128,012
Net fair value	2,128,012	-	-	2,128,012
30-Jun-21				
Assets				
Fair value through profit or loss	2,341,369	-	-	2,341,369
Net fair value	2,341,369	-	-	2,341,369

Fair value through profit or loss financial assets have been determined by reference to their quoted bid prices at the reporting date.

The fair value of cash, trade and other receivables and trade and other payables and borrowings are assumed to approximate their carrying amounts due to their short-term nature.

Non-financial assets fair value hierarchy

	Level 1 \$	Level 2 \$	Level 3 \$	Total \$
30-Jun-22				
Assets				
Property, plant & equipment - Land & building	-	1,981,023	-	1,981,023
Investment property	-	950,000	-	950,000
Net fair value	-	2,931,023	-	2,931,023
30-Jun-21				
Assets				
Property, plant & equipment - Land & building	-	1,984,612	-	1,984,612
Investment property	-	950,000	-	950,000
Net fair value	-	2,934,612	-	2,934,612

Fair value of MGA's main property assets is estimated based on appraisals performed by independent, professionally-qualified property valuers. The significant inputs and assumptions are developed in close consultation with management.

Further information about the valuation of the property assets are in Notes 11 and 13.

MASTER GROCERS AUSTRALIA LIMITED
A.C.N. 004 063 263
STATEMENT BY DIRECTORS
FOR THE YEAR ENDED 30 JUNE 2022

In the opinion of the directors of the company;

(a) The financial statements and notes to Master Grocers Australia Limited are in accordance with the *Corporations Act 2001*, including:

- i Giving a true and fair view of its financial position as at 30 June 2022 and of its performance for the financial year ended on that date; and
- ii Complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*; and

(b) At the date of this statement, there are reasonable grounds to believe that the company will be able to pay its debts as and when they fall due,

This statement is made in accordance with the resolution of the board of directors and is signed for and on behalf of the directors by:

DATED this 19th day of October 2022

Director

Director

Elliott Assurance Pty Ltd *
Audit and Compliance Services

Independent Auditor's Report to the Members of Master Grocers Australia Limited for the Year ending 30 June 2022

Audit Opinion

I have audited the financial report of Master Grocers Australia Limited (the company), which comprises the statement of financial position as at 30 June 2022, the statement of profit or loss and other comprehensive income, statement of changes in equity, statement of cash flows for the year then ended, notes to the financial statements and the statement by directors.

In my opinion, the accompanying financial report of Master Grocers Australia Limited is in accordance with the Corporations Act 2001, including:

- (a) giving a true and fair view of the company's financial position as at 30 June 2022 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and any other mandatory professional reporting requirements

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. I am independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Directors for the Financial Report

The directors of the company are responsible for the preparation and fair presentation of the financial report in accordance with Accounting Standards and the Corporations Act and for such internal control as the company determines is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for overseeing the company's financial reporting process.

Independent Auditor's Report to the Members of Master Grocers Australia Limited for the Year ending 30 June 2022

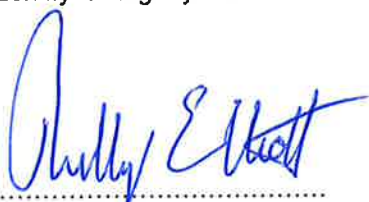

Auditor's Responsibilities for the Audit of the Financial Report

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Phillip Elliott *

620 St Kilda Road Melbourne
